Hello 4th grade OCIS families:

Welcome to the Ocean City Intermediate School! We realize that the transition to a new school building can be a little nerve-racking for students as well as their families. We would like to help make this transition as seamless and as exciting as possible. As we begin our journey together, I would like to invite you and your child to attend our 4th Grade Orientation on Wednesday, August 25th. Parents/Guardians will hear from administrators and staff members, while the students get the opportunity to meet their fantastic new teachers and take a tour of the school.

Please enter the building through the front doors and report to the Multi-Purpose Room at 8:50 AM. From here, students will be escorted to their homerooms, where they will begin each morning as 4th graders. Both the parent and student presentations will start at 9:00 AM. The orientation program should last approximately forty-five minutes.

Please make every effort to attend this informational program. Becoming familiar with the school building and their new teachers should go a long way in providing your child with a boost of confidence for their first day and will likely help to ease their transition to the Ocean City Intermediate School.

We look forward to seeing you and your child on Wednesday, August 25th, at the Ocean City Intermediate School.

Thank you.
